Dear Mr. Bernard:

Please accept my congratulations to you and the staff of Portage Plastics Corporation for receiving the SHARP Award from OSHA and the WisCon Program. This is a tremendous honor.

Portage Plastics Corporation is an industry leader in developing thermoforming plastics and promoting food safety. As one of only 15 Wisconsin companies to receive the SHARP Award, Portage Plastics continues its leadership through a commitment to employee safety and health. I join OSHA and WisCon in applauding your efforts.

Again, congratulations as you receive the SHARP Award. Best wishes for continued success.

Sincerely,
